This USB-A - Lightning CNS-MFIC12 cable will help you to quickly charge and sync all your iOS-devices, such as iPhone or iPad. Simply connect your smartphone to a USB port of your laptop and you can charge the telephone and sync your data. The optimal length of the MFI cable (2 meters) allows comfortable accommodation of a connected device when charging from the mains. The USB-A to Lightning adapter Canyon is encased in a strong PVC covering. The USB-A - Lightning cable Canyon CNS-MFIC12 is available in black and white colors. An essential accessory for charging gadgets at home, or while traveling. Apple officially certified the product.
