9 Port USB-C Hub DS-11

MAIN TEXT

A new level of functionality – 9 ports for universal connectivity! With this hub, you can connect almost everything you need for home and work via a single USB-C port: HDMI monitor, headphones or speakers, USB devices, as well as directly connect to the Internet via Gigabit Ethernet. Two USB-A 3.0 ports and one USB-A 2.0 port allow you to use all the necessary computer peripherals. Two SD and Micro SD card slots enable the instant transfer of large amounts of data. The up to 100W USB-C PD port charges any of your connected devices at optimal speed. The lightweight and durable housing is made of aluminum and prevents interference in signal transmission. The hub is “Plug and Play” and does not require additional software. Maximum functionality for your gadgets!
