The MW-04 mouse from Canyon is the universal remedy for all your needs. Thanks to its Bluetooth 5.0 capabilities, it can be effortlessly connected to a wide variety of devices. What else is there to see? A 1200 DPI optical sensor is combined with a smart power saving system. Meaning that just a single AA battery serves as long as it could get.

There are 3 minimalistic buttons that can surely withstand 3 million clicks. Canyon MW-04 is lightweight and compact, so put it in your bag and take it on adventure.

If you're left-handed, worry not: this mouse is ambidextrous and suitable for both left- and right-handed people. In fact, you can buy two of them and use both of your hands! Think about it and get at least one today.
