

Charge & sync cable CC100SC

Meet the CNS-CC100SC20W USB4 Cable – your go-to solution for power, speed, and reliability. This cable is designed with your busy, tech-driven life in mind. Whether you're charging your devices or transferring large files, it delivers a whole 100W of power for fast charging and 20Gbps transfer speeds, so you can accomplish more tasks in less time.

With the cable's convenient 2-meter length, you get the flexibility to stay connected even when you're on the move or working from different setups. Plus, the cable is crafted with soft TPE material, which makes it not only durable, but also comfortable to handle. Doesn't a tangle-free cable sound like a dream?

Slow data transfers and constant recharging are a thing of the past now – this USB Type C to USB Type C cable is all about making your life easier thanks to its cutting-edge USB4 technology. Rest assured: this device will keep up with your tech and power your devices while you enjoy an upgraded experience.
