

Wall Charger OnCharge 200

Power up your day with the OnCharge 200, our compact yet powerful wall charger designed to keep up even with the most fast-paced lifestyles. You can be at home, at the office, or working on the go, and this 20W powerhouse will keep your devices charged and ready to go at all times.

With both USB Type C and USB(A) ports, you can charge two devices at once. No more waiting for one device to finish before powering up the next! The PD Fast Charge technology delivers lightning-fast speeds, meaning your smartphone, tablet, or accessories get the power they need in record time.

The OnCharge 200 is built for reliability and safety. It features over-voltage, overheating, overcurrent, and short-circuit protection, keeping your devices safe from unexpected power fluctuations. Whether you're charging overnight or just giving your phone a quick boost, you can plug in with confidence knowing your devices are well-protected.

Designed with efficiency and durability in mind, the OnCharge 200 can blend into any space. Its sturdy build and high-quality materials ensure long-lasting performance, making it a trusted device for daily use. Stay charged, stay connected, and power through your day without interruptions with the OnCharge 200.
