

Wall Charger OnCharge 200

Fast, reliable, and built for modern life, the OnCharge 200 Wall Charger delivers power exactly when you need it. Whether you need to charge your smartphone, tablet, or another USB Type C device, 20W of total power will make sure your gadgets are ready to go in record time.

With PD Fast Charging, your devices charge up to 3× faster than standard adapters, reducing wait times and keeping you connected. The PPS (Programmable Power Supply) technology dynamically adjusts the voltage and current, which optimizes charging speed while keeping heat low and efficiency high.

Designed for safety and longevity, the OnCharge 200 features multiple layers of protection against over-voltage, overheating, overcurrent, and short circuits. We're talking peace of mind with every charge here. Compact, lightweight, and equipped with an EU plug, this charger is perfect for travel and everyday use. Just plug in, power up, and experience charging at its best.
