

Charge & Sync Cable

OnWire 60CL

When you're always on the move, you need a cable that can keep up without fraying, slowing down, or turning into a tangled mess. That's what the OnWire 60CL is for.

Designed for high performance, it powers your devices with up to 60W of fast, reliable charging, and delivers file transfers at speeds up to 480Mbps. Need to move high-res video projects, back up critical data, or just give your laptop a quick top-up before a meeting? The OnWire 60CL can handle it without breaking a sweat.

What makes it different is the build. The ultra-soft braided coating gives it a flexible, premium feel, while the braided outer layer adds serious durability. Twist it, bend it, flex it a hundred times – the OnWire 60CL stays smooth, strong, and tangle-free no matter what. It's meant to survive everyday wear and tear and still look good.

At 1 meter long, with sturdy C-to-C connectors, it's made for real-world use whether you're at your desk, on a plane, or living out of your backpack. And, with five clean, modern color options – White, Black, Pink, Light Blue, and Lavender – you can match your setup or make your gear stand out your way.

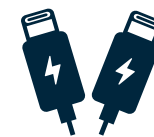

We promise, it's not just another charging cable; OnWire 60CL is the dependable, high-performance link between you and everything you need to get done.

60W POWER DELIVERY

Charge faster and work smarter. The OnWire 60CL delivers up to 60W of power delivery, giving your laptops, tablets, and smartphones the rapid energy they need to keep up with your busiest days. No more long waits; instead, just quick and efficient charging you can count on.

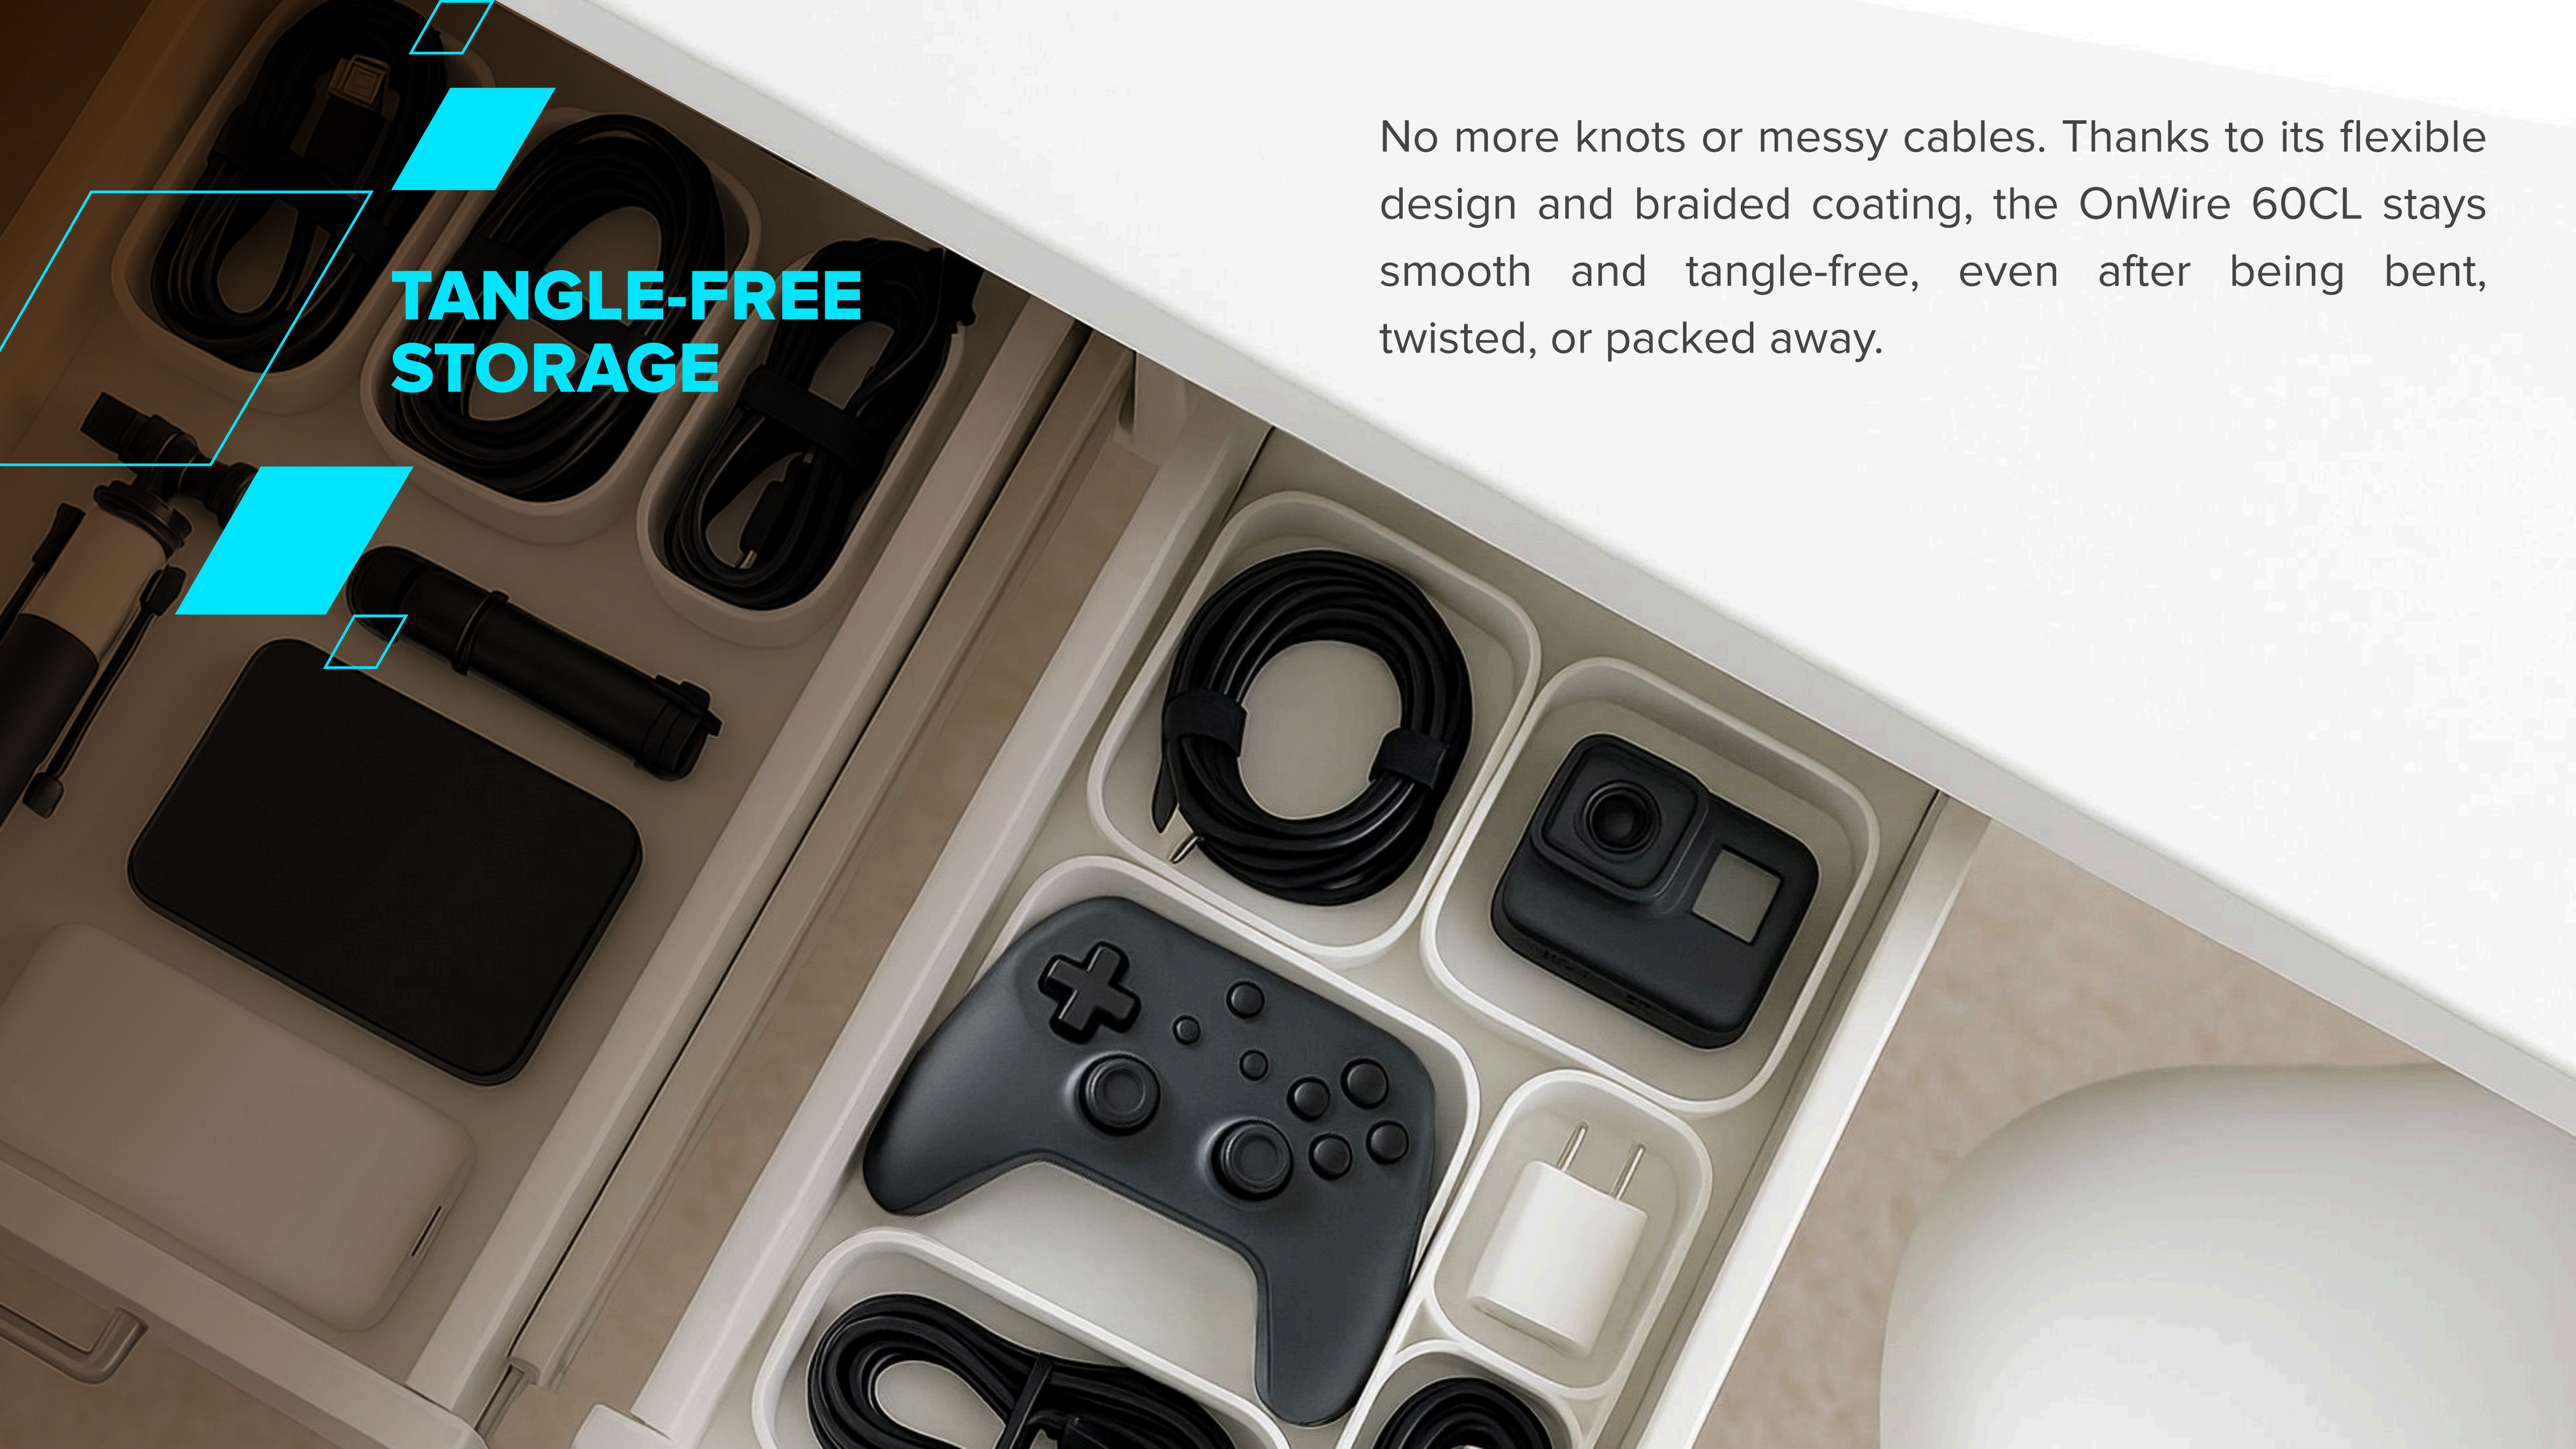

480Mbps HIGH SPEED DATA TRANSFER

Transfer files, photos, and videos with ease. The OnWire 60CL offers up to 480 Mbps data speed, making everyday syncing and backups fast and simple.

C TO C CONNECTORS

Built for today's devices. With USB(C) to USB(C) connectors, the OnWire 60CL easily handles fast charging and smooth data transfer across laptops, tablets, phones, and more with no adapters needed.

TANGLE-FREE STORAGE

No more knots or messy cables. Thanks to its flexible design and braided coating, the OnWire 60CL stays smooth and tangle-free, even after being bent, twisted, or packed away.

A series of red geometric shapes, including parallelograms and a larger rectangle, arranged in a staggered pattern on the left side of the image.

1M CABLE LENGTH

Just the right amount of reach. At 1 meter long, the OnWire 60CL gives you enough flexibility to charge and sync comfortably without creating extra clutter.

The image features two Canyon OnWire 60CL cables against a background of flowing, purple, textured fabric. The cables are light pink with a braided texture. Each cable has a white USB-C connector at the bottom and a light pink, rounded, ribbed connector at the top. The brand name 'CANYON' is printed vertically on the top connector of each cable. In the upper left, the text 'ULTRA-SOFT BRAIDED COATING' is displayed in white, bold, sans-serif font, with white geometric shapes (a parallelogram and a rectangle) pointing towards the braided section of the cables.

ULTRA-SOFT BRAIDED COATING

Smooth to the touch and flexible, the OnWire 60CL's ultra-soft braided coating provides a comfort feel while offering durability. It's designed to withstand your busy lifestyle.
