

Wireless mouse

OnClick 24

A reliable mouse should work smoothly, comfortably, and without fuss. The OnClick 24 is built with exactly that in mind. With dual wireless connectivity (2.4GHz and BT 5.1), it easily pairs with your laptop, tablet, or desktop. Switch between them when you need to, with minimal delay or setup.

The 1200 DPI sensor delivers solid precision for everyday tasks, while the 125Hz polling rate and 50g acceleration provide steady tracking every time you're scrolling through spreadsheets or doing light creative work. Inside, it's powered by a 500mAh rechargeable lithium battery that holds enough charge for long work sessions and recharges via USB(C) with the included 60cm cable.

It's not just about performance, though — comfort matters too. This mouse has a balanced, lightweight design (90g), shaped to fit your hand without fatigue, and its ABS shell is durable enough to handle daily use. With four buttons built to withstand up to 30 million clicks, it's designed for both productivity and longevity.

And with a reliable operating range of up to 10 meters, you're free to move around your space without losing connection or responsiveness. Whether you're working from home, the office, or a coffee shop, the OnClick 24 is a mouse you don't have to think about; it just fits into your day.

FREEDOM WITHOUT WIRES

Cut the clutter and move freely. The OnClick 24 connects wirelessly to your devices using stable, lag-free technology that keeps you responsive without being tied down. Switch between workspaces or use it on the go — it gives you the freedom to focus, not fuss with cables.

**DESIGNED
TO SHOW OFF**

With a subtle transparent housing, the OnClick 24 stands out just enough, showing off the inner details without being flashy. It adds a touch of personality to your desk setup while still looking clean and modern.

QUIET BY DESIGN

No more sharp clicks breaking your focus. The OnClick 24 features silent-click technology that keeps noise to a minimum, making it ideal for shared spaces, late-night work sessions, or quiet environments. It's responsive, tactile, and discreet, so you get the feel of every click without the sound that usually comes with it.

SWITCH SEAMLESSLY & STAY CONNECTED

With dual-mode connectivity, the OnClick 24 lets you choose how you connect: via 2.4GHz wireless or BT 5.1. Switch between your laptop, tablet, or even a smart TV without needing to plug in or re-pair. It's built for flexibility, so you can move between devices and workflows easily.

POWER THAT LASTS (AND RECHARGES FAST)

Forget disposable batteries: the OnClick 24 comes with a built-in 500mAh rechargeable battery that keeps you powered for days. When it's time to top up, just plug in the included USB(C) cable and you're back to full in no time. It's more sustainable, more convenient, and ready when you are.

SMOOTH, ACCURATE, ALWAYS ON POINT

Equipped with a 1200 DPI optical sensor, the OnClick 24 delivers precise tracking on a wide range of surfaces. When you're dealing with detailed spreadsheets or casually browsing, the movement feels natural and responsive. It's the kind of accuracy that makes everyday tasks feel effortless.

SMART LOOK & COMFORTABLE FEEL

The OnClick 24 combines minimalist aesthetics with an ergonomic shape that fits naturally in your hand. Its clean lines, compact form, and lightweight build make it as pleasing to look at as it is to use. Whether it's sitting on your desk or packed in your bag, it always feels like the right choice.
