

LORGAR

VOICER 521

Professional Microphone

The Lorgar Voicer 521 is the first microphone in the Lorgar premium line. You can confidently use it for all your needs – game battles, work meetings, recording podcasts, or streaming. Thanks to the “Tap-to-mute” touch button on the microphone, you can instantly mute the sound with a light touch. A sound indicator will show whether you went live. The built-in sound card allows you to connect headphones directly to the microphone and monitor recording progress without booting up your computer or recorder. It offers an optimal audio format of a reference frequency of 48 kHz, with a bit rate of 16 bits.

The microphone has a cardioid polar pattern, ensuring clear voice transmission due to suppression of external sounds and noise. The gadget has optimal sensitivity - about 40 dB and a wide range of operating frequencies - from 50 Hz to 18000 kHz. Adjusting the volume and quality of the sound, output signal level, and instant mute are quick and intuitive. The microphone stand is stable and quickly positions the microphone at the desired angle and rotates 360°. A fully detachable USB Type-C cable 2 m long with plugs at both ends is used for the connection. The gadget does not require additional software or special skills - just connect the microphone to the USB input of your computer and start recording!

- Professional sound
- Plug & Play
- Compatible with Mac OS, Windows, Android, and PlayStation
- Supports all popular software for audio communication and streaming
- Connects to headphones
- Cardioid polar pattern
- Robust metal construction
- Volume and sensitivity control
- Tap-to-mute touch button for instant mute
- Microphone status indicator
- Output level control directly on the microphone
- Fully detachable 2m USB Type-C cable
- 360° adjustable tripod included

ULTIMATE EASE OF USE

Plug and play - no additional software required

Simply connects to a computer with a USB cable

No complicated settings or professional skills required

The sound is adjusted on the go by using two wheels

A WIDE RANGE OF APPLICATIONS

Suitable for all microphone use cases

In-game communication, streaming, podcast recording, work meetings

Supports Discord, OBS, FL Studio, Skype, and other programs

Compatible with Mac OS, Windows, Android, and PlayStation

OMNI-DIRECTIONAL CARDIOID PATTERN

Picks up sound from the front and eliminates all noises from the sides.

Engineered for high-quality voice recordings.

Recommended for online gaming, streaming & podcast recording.

Durable metal body,
high-quality build

Volume wheel for fast and
accurate volume control

LED indicator to track
mute/unmute status

Easy adjustment of
height, tilt and swivel

Tap-to-mute touch button
for instant mute

Stable tripod stand

TECHNICAL PARAMETERS

Power supply: 5 V

Polar pattern: Unidirectional (cardioid)

Frequency response: 50 Hz - 18 kHz

Sensitivity: $-40 \text{ dB} \pm 3 \text{ dB}$

Maximum sound pressure level: 110 dB (at 1kHz \leq 1% T.H.D)

Load impedance: 1000 Ω

Signal-to-noise ratio: 70 dB (A-weighted)

Sampling rate: 44.1K / 48 kHz

Electric current: 75mA \pm 5mA

Recording format: 48 kHz 16 bit

MATERIALS AND DIMENSIONS

Materials: ABS plastic, metal

Product dimensions: 136 x 101 x 136 mm

WARRANTY

Warranty term 24 months

Warranty validation criteria Serial number
